# BIOKLASS PLUS

Dietetic complementary feed

Highly bioavailable source of minerals

## COMPOSITION

Dextrose

Magnesium sulphate heptahydrate

Sodium chloride

### Additives per kg

*Trace Elements:*

Zinc chelate of glycine, hydrate (solid) (3b607)

Copper (II) chelate of glycine hydrate (solid) (3b413)

*Flavouring compounds:*

Sodium saccharin (E 954iii)

Neohesperidine dihydrochalcone (2b959)

## PROPERTIES

It is an important source of highly bioavailable minerals.

## INDICATIONS AND USES

**Target species:** Piglets.

**Period of use:** From 2 to 15 days.

**Indications:** Support to prevent nutritional imbalances during dietary transition.

## DOSAGE AND ADMINISTRATION

Oral administration in drinking water.

Administer 750g of Bioklass Plus per 1,000 L of water.

Due to its high zinc and copper content, this complementary feed should only be applied up to 0.2% of the daily ration.

The legal maximum content of zinc and copper in complete feed must be respected.

## STORAGE

Store in a cool and dry place and protected from light.

## SHELF - LIFE

24 months.

## PACKAGE SIZE

Bags of 1,5 Kg
